

Automatic Carrier Filtering

We've added a feature to automatically filter out carriers if the shipment exceeds their maximum pallet, linear feet, or cube thresholds.

In order for this to apply, you will need to enter thresholds on your applicable LTL carrier agreement. You may need to reach out to your carrier account manager to get this information.

On the **Connected Carriers** page, click on the agreement name for the LTL agreement you'd like to adjust.

Agreement References						
Apply	Actions	Agreement Name	Agreement Notes	Active	Agreement Type	
☐				All ▾	All ▾	
☐	Quick Actions...	A-0000146416		Yes ▾	Spot/Volume Agreement	
☐	Quick Actions...	A-0000143907		Yes ▾	TL Agreement	
☐	Quick Actions...	A-0000116542		Yes ▾	Spot/Volume Agreement	
☐	Quick Actions...	A-0000116541		Yes ▾	Spot/Volume Agreement	
☐	Quick Actions...	A-0000116540		Yes ▾	Spot/Volume Agreement	
☐	Quick Actions...	A-0000110110		Yes ▾	LTL Agreement	
☐	Quick Actions...	A-0000094541		Yes ▾	TL Agreement	

Scroll down to the **Shipment Limits** section, and add the thresholds provided by the carrier and then click Save.

Automatic Carrier Filtering

The 'Shipment Limits' form contains the following fields and sections:

- Max Liftgate Weight**: A text input field.
- Hide Rates**: A checkbox.
- Max Handling Units**: A text input field with a yellow highlight and a right arrow icon.
- Max Linear Feet**: A text input field with a yellow highlight.
- Max Cubic Feet**: A text input field with a yellow highlight.
- Max Weight**: A text input field containing the value '20,000'.
- Notes**: A section with a right arrow icon.
- System Information**: A section with a right arrow icon.
- CWT Rates**: A section with a right arrow icon.
- Buttons**: 'Cancel' and 'Save' buttons at the bottom right.

Now, when creating a shipment in **Ship It**, the information can be added in the **What Items will you be shipping?** section.

Click on the corresponding checkboxes to enable the measurement you want to include.

The 'What Items will you be shipping?' form contains the following fields and sections:

- Add Item Details**: A section header.
- Handling Unit Type**: A dropdown menu with 'Pallet(s)' selected.
- # HU's**: A text input field with the value '1'.
- PKG Type**: A dropdown menu with 'Box(es)' selected.
- # PKG's**: A text input field with the value '1'.
- Description**: A text input field with the value 'Right Boots'.
- Order Reference**: A text input field.
- Total Weight**: A text input field with the value '0'.
- UOM**: A dropdown menu with 'lbs' selected.
- Class**: A dropdown menu with '70' selected.
- NMFC**: A dropdown menu with 'NMFC' selected.
- L (in)**: A text input field.
- X W (in)**: A text input field.
- X H (in)**: A text input field.
- UOM**: A dropdown menu with 'in' selected.
- Stackable**: A dropdown menu with 'No' selected.
- Estimated Class**: A text input field with the value '400'.
- Density(PCF)**: A text input field with the value '0'.
- Add More Handling Units**: A button with a plus icon.
- Add Total Linear Feet**: A checkbox that is checked.
- Linear Feet**: A text input field.
- Add Total Cube**: A checkbox that is checked.
- Cube**: A text input field with the value '0'.
- Total Shipping Weight**: A text input field with the value '0.0000'.
- Total Cubic Feet**: A text input field with the value '0.00'.
- Total Handling Units**: A text input field with the value '1'.
- Total Packages**: A text input field with the value '0'.

Now, when sending the shipment information to your carriers, the Kuebix system will check those fields against the thresholds entered on your carrier agreement(s), and exclude that carrier if the thresholds apply.

If you do not enter the total linear feet or total cube on the shipment, all carriers will be included in your results.
