

Comparing LTL and Parcel Rates

LTL/Parcel Compare in Kuebix allows the shipper to determine the best mode to ship their freight. **Parcel and LTL rates will only return if they meet the proper shipping requirements for each mode.**

1. Go to Ship It to begin creating your shipment.
2. Click the **Include Parcel Rates/ Include LTL Rates** button.

The screenshot shows a web form titled "Let's get started by answering a few required questions about your shipment". The form contains several fields: "Location" (Carrots for Okapis - Carrots), "Shipment Type" (LTL), "Include Parcel Rates" (checked, highlighted with a red box), "Payment Type" (Outbound Prepaid), "Carrier Type" (Dry Van), "Select Carrier" (Roadie), "Account Number" (empty), "Service Level" (--Shop--), and "Signature Options" (No Signature Required).

Location	Carrots for Okapis - Carrots	Select Carrier	Roadie
Shipment Type	LTL	Account Number	
Include Parcel Rates	<input checked="" type="checkbox"/>	Service Level	--Shop--
Payment Type	Outbound Prepaid	Signature Options	No Signature Required
Carrier Type	Dry Van		

3. Enter your shipment details as you normally would.
4. Click **Get Rates**.
5. Your Parcel and LTL rates will now appear side by side.
6. Book your shipment like you normally would.
