

Creating a Multistop TL shipment in Ship It.

To create a Multistop shipment, navigate to **Ship it** via Ship It tile on the home page or from the drop down **Shipping Tools** menu at the top of your screen.

Next, select the applicable Multistop type from the **Shipment Type** options. For this example, I am using **Multistop Delivery**.

Hello. Let's get ready to ship your product.

Let's get started by answering a few required questions about your shipment

Location	Carrots for Okapis - Carrots
Shipment Type	LTL
Include Parcel Rates	LTL TL TL Multistop Delivery
Payment Type	TL Multistop Pickup Parcel
Carrier Type	Dry Van

Enter the Address and Contact information as you would normally.

The **Delivery Date**, **Delivery Number**, and **Delivery Window** information will need to be entered for each specific Stop.

The first desired stop should be 1, the second 2, etc.

Once the Address, Contact, and Delivery information are entered, click **Add Delivery** in the bottom right corner of the section.

Ship To: Edit and update your Ship To address and contacts

Search Company	<input type="text" value="Test Test Test Inc"/>	Select Contact	<input type="text" value="Dr. Eliza Doolittle"/>
Company Name	<input type="text" value="Test Test Test Inc"/>	First Name	<input type="text" value="Dr. Eliza"/>
Address	<input type="text" value="5 Mill and Main"/>	Last Name	<input type="text" value="Doolittle"/>
Address 2	<input type="text"/>	Email	<input type="text" value="test@test.com"/>
Postal	<input type="text" value="43215"/>	State	<input type="text" value="OH"/>
City	<input type="text" value="Columbus"/>	Phone	<input type="text" value="(413) 511-1234"/>
Country	<input type="text" value="United States"/>	Delivery Instructions	<input type="text" value="Test 54321ABC"/>
Residential Address	<input type="checkbox"/>	<input type="checkbox"/> Save Instructions	
Liftgate Required	<input type="checkbox"/>	Destination Tax ID/VAT	<input type="text"/>
Appointment Required	<input type="checkbox"/>		

Default Contact

Delivery Date	<input type="text" value="02/29/2024"/>	Delivery Window	<input type="text" value="7"/> : <input type="text" value="00"/> <input type="text" value="AM"/>
Delivery Number	<input type="text" value="1"/>		<input type="text" value="4"/> : <input type="text" value="00"/> <input type="text" value="PM"/>

Repeat the process with each additional desired stop location.

Once you've entered all stops, we can now add the Line Items.

Scrolling down to the Line Item area, we can see basic information for each entered stop, including the set Delivery Date and Window.

The blue highlighted line indicates which stop has been selected.

Enter the Handling Unit and Line Item information for the stop you've selected.
