LTL API Credential Matrix

The list below indicates the credentials you need from your carrier accounts to connect API Web Services with Kuebix. This will enable you to easily rate, book, and track with all of your carriers in one place!

- 1. In the table below, scroll or search for your carrier to locate the information required.
- 2. To view the instructions on obtaining those required credentials, click here.
- 3. Once you've done the above, click here to view our **Add Carrier** article and follow the instructions to connect your carrier accounts to your Kuebix Account.

If you have any questions, please email support@kuebix.com for assistance.
