

Payment Types

There are five types of Payment options when creating a shipment in Ship It.

The screenshot shows a web form titled "Golf Ship Demo" with a header "Let's get started by answering a few required questions about your shipment". The form contains several fields: "Shipment Type" is set to "LTL"; "Include Parcel Rates" is an unchecked checkbox; "Payment Type" is a dropdown menu with "Outbound Prepaid" selected and open, showing options: "Inbound Collect", "Outbound Collect", "Outbound Prepaid" (highlighted), "Third Party", and "Third Party Collect"; and "Carrier Type" is a dropdown menu. The bottom of the form has a blue bar with the text "our Ship From address and contacts".

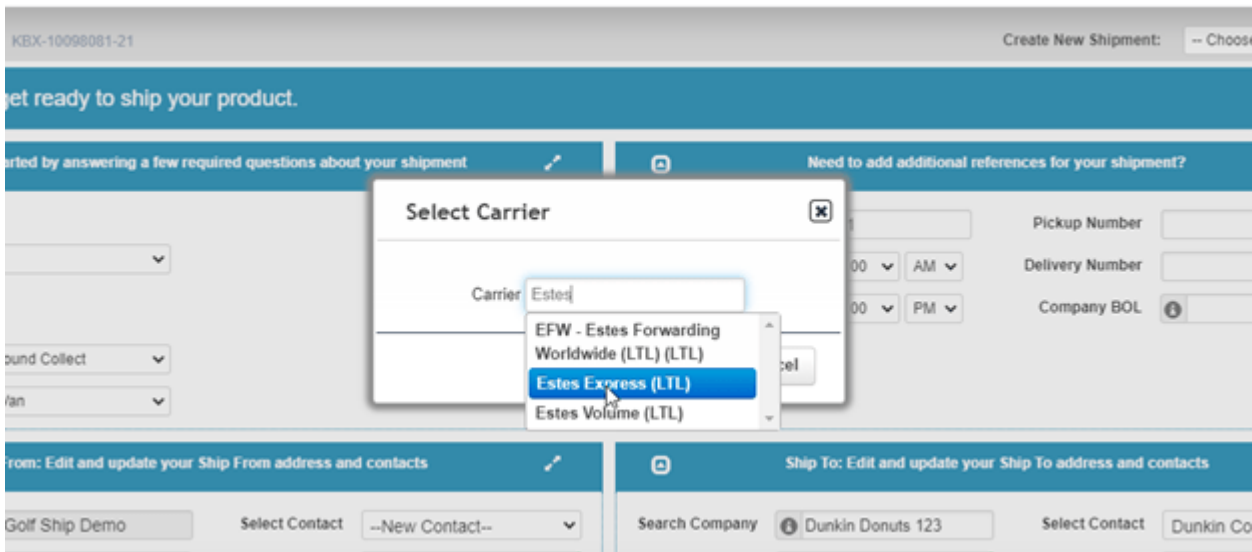

The Payment Type selected will effect the Ship To, Ship From, and Bill To fields.

Outbound Prepaid - The shipment is being picked up at your location, and you are paying for it. The only available field to edit is the Ship To. Autoscheduling and Pro numbers are options.

Outbound Collect - The recipient will be billed/is paying for the shipment. The Bill To section is blank and cannot be edited - this information will auto fill after the Ship To information is provided.

After creating the shipment, select “Save and Assign Carrier” and a small popup window will appear. Type the name of the carrier here, and select the corresponding name.

Autoscheduling and Pro numbers are possible.

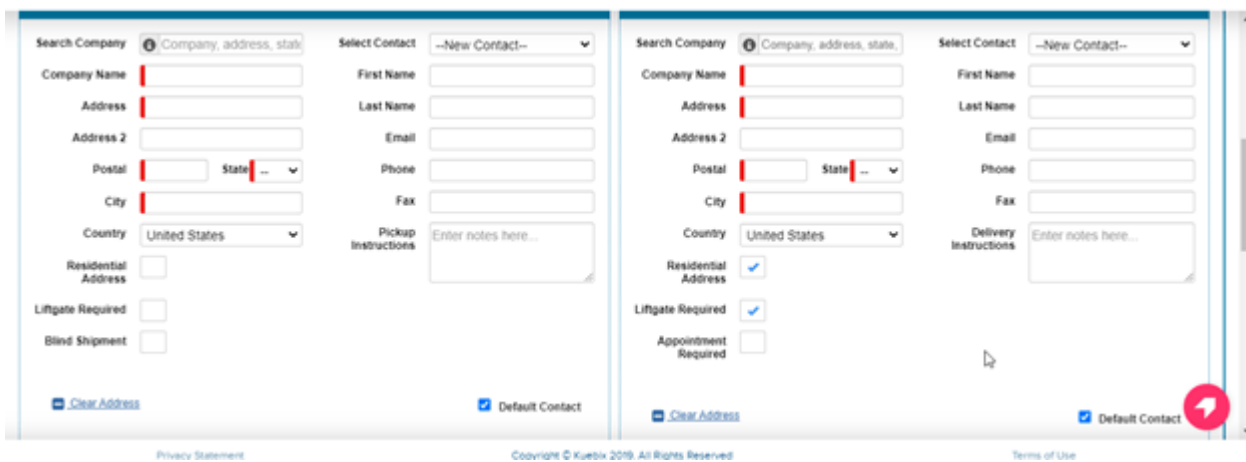

Inbound Collect - You are receiving the shipment and are paying for the shipment. The Ship To and Bill To information is filled in and cannot be edited. The Ship From

information is required.

Autoscheduling and Pro numbers are possible.

Third Party - You are paying for a shipment that is being picked up somewhere else and being delivered to the customer.

The Bill To section cannot be edited, and the Ship To, Ship From sections will require information.

Autoscheduling is possible , Pro numbers are not.

Third Party Collect - The shipment is being picked up from you, and neither you nor the recipient is paying for the shipment. The Ship From information cannot be edited, the Ship To and Bill To information will need to be provided.

Ship From: Edit and update your Ship From address and contacts		Ship To: Edit and update your Ship To address and contacts
