Default shipment information

There are a number of fields on the Ship It page that can be defaulted to help streamline building shipments in Ship It.

Please look over the options below and let us know at **support@kuebix.com** which defaults you would like to implement.

A number of these can be set up using the instructions available here: Location Defaults.

Starting with the basic options

The location will be associated with your user profile and can be defaulted to whichever location you prefer.

Shipment Type: LTL, TL, TL Multistop Delivery, TL Multistop Pickup, Parcel.

Payment Type: Outbound Prepaid, Third Party, Inbound Collect, Vendor Delivered, Third Party Collect, Outbound Collect

Carrier Type: Air, Bulk, Flatbed, Intermodal, Ocean, Temp Controlled, Dry Van

Next, your Pickup Window

Set your Ship From

Pickup Accessorials: Residential, Liftgate Required

Ship From Contact: Set one to show up automatically, or have a list of multiple contacts.

Pickup Instructions: 255 character limit

Now for Accessorials

Options selected will reflect in the additional services field
