

# The Manage Shipments Grid

The Manage Shipments Grid is a great place to check on shipment statuses and update shipments in a number of ways. To help you utilize this capability we've written these guidelines.

Once you've logged in to your Kuebix account, go to the "Shipping Tools" tab and select "Manage Shipments".

## Table of Contents

- Statuses

- Rates and Booking

## Statuses

Select the Status option to change which shipments you see, and each status has different icons available.

- Saved Shipments: shipments that are in the process of being created, that have not been Booked, and/or do not have Spot/Volume rates requested.
- Booked Not Picked Up: shipments that have been Booked through Kuebix, and may or may not have been scheduled.
- In Transit: the carrier has picked up the shipment and is in route.
- Delivered: shipments the carrier has marked as delivered.
- All: All of the shipments that have been created, regardless of status.
- Review Posted: If you have requested any Spot/Volume quotes, they will be visible here. For more information on booking Spot quotes from the Manage Shipments Grid please see the article [Getting and Booking Spot Quotes](#).

**Shipments will stay in the Manage Shipments Grid for 90 days.** After 90 days the shipment can still be located using the search field in the menu bar.

## Icons

All statuses will have icons along the top of the grid, as well as additional icons in line with the shipment itself.

There are icons on the far right side of the grid that are standard and do not change with the status.

Left to right, the first Icon brings up options available for which columns to include.

Clicking the check box next to the subject will add that column. Once the column is visible in your view, you can click on the column title and drag it to your desired position. The column width can also be adjusted.

The view is user specific and will persist until it is changed again.

The center icon exports all of the information in the current status screen as a .csv file.

The rightmost icon refreshes your manage shipments grid without reloading the entire page.

## Saved Shipment Icons

To edit a shipment, click on the pencil icon next to the BOL number that you would like to edit.

This will open the shipment in a new tab in your browser.

## Booked Not Picked Up Icons

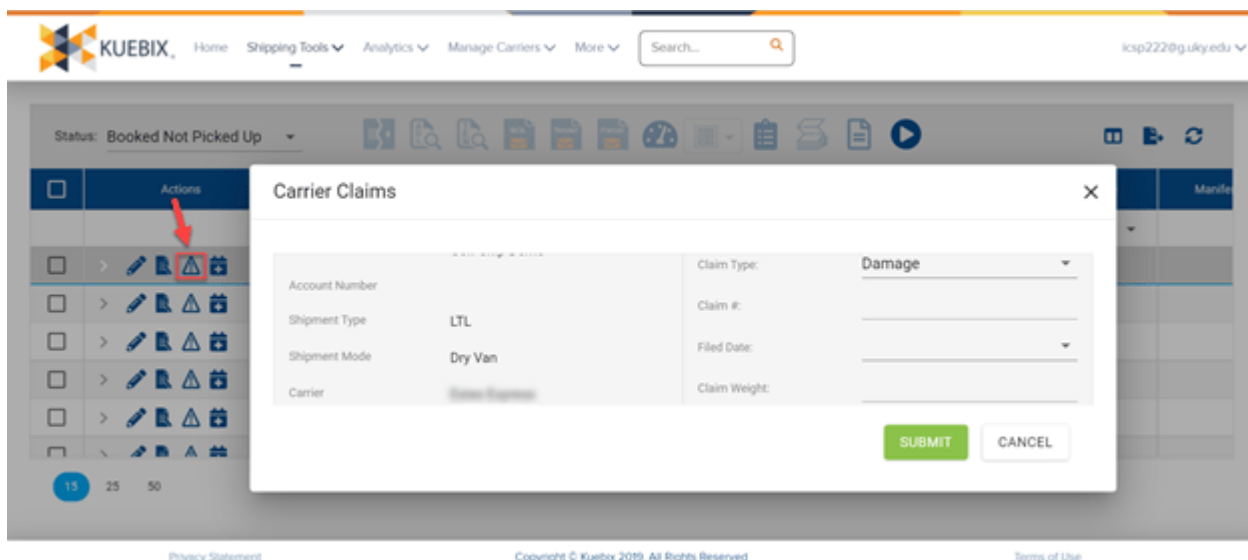

Similar to the Saved Shipments status, the Pencil Icon in the left column allows you to edit the shipment. If any edits/updates are necessary after booking, please reach out to the carrier directly to let them know.

The next icon (going left to right) is the Edit Carrier Fields, enabling you to manually update the pickup and delivery information for that selected shipment. Once the information is filled in, click Update to submit the changes.

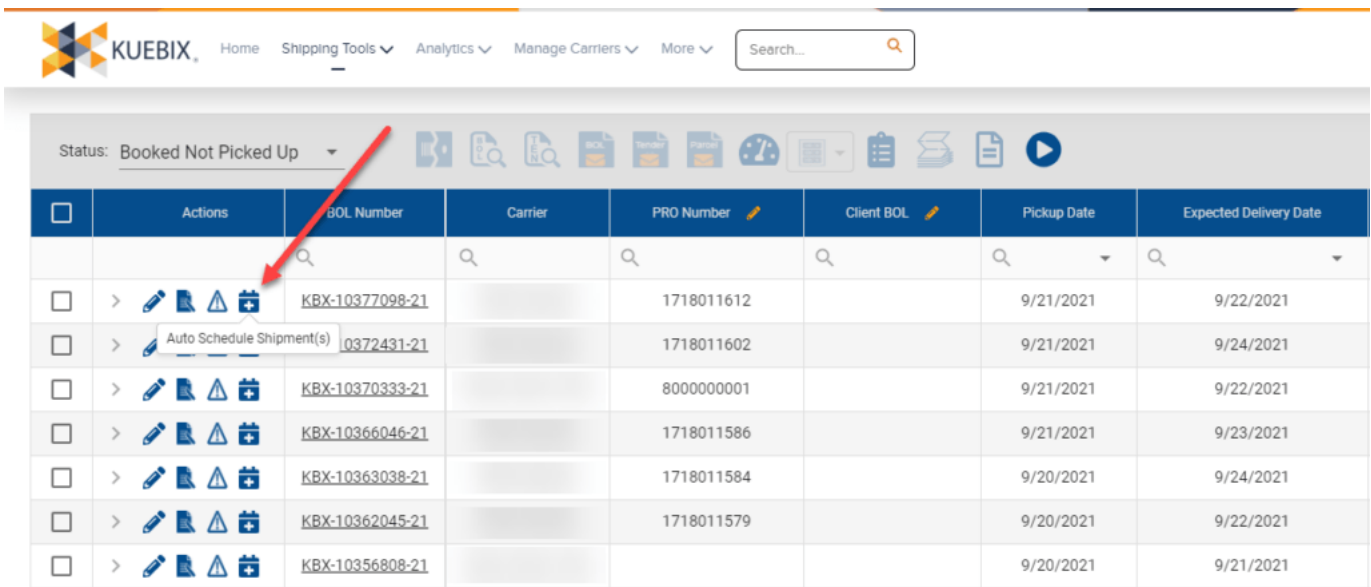

The third icon is to submit carrier claims, and opens a pop up to fill out all necessary information.

The right most icon is the Calendar icon, and will auto-schedule the shipment. Please note that once the icon is clicked, the shipment will be sent to the previously booked carrier.

## **In Transit, Delivered, and All Icons**

The icons are the same as those for the Booked Not Picked Up screen, save that since the shipment has already been scheduled, the Calendar icon is swapped for the View Documents icon.

Clicking on the View Documents icon allows you to either see the existing Delivery Receipt and/or Bill of Lading, or request the documents from the carrier.

## Shipment Specific Menu Bar Icons

These are the same as those offered on the Booked Not Picked Up screen, and have the same functions.

## Review Posted Icons

Once spot rates are returned by the carrier, the Book icon becomes available. Clicking the Book icon notifies the carrier that their quote has been accepted.
